Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) **11-18**, drawn to a process of electrolytic synthesis of organozinc compounds.

Group II, claim(s) **19-21**, drawn to a composition for electrolytic use and a process for the electrolytic synthesis of an organozinc compound.

Group III, claim(s) **22-23**, drawn to an aromatic organozinc compound.

The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

Group I lacks the special technical features of the specific composition recited in Group II and of the specific aromatic organozinc compound recited in Group III.

Group II lacks the special technical features of the specific aromatic organozinc compound recited in Group III.

Group III lacks the special technical features of the process steps recited in Groups I and II.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
